

Welcome to

## Kids Sea Camp

Thank you for choosing to dive with **Scuba St. Lucia**. The following information is about our operating procedures and schedule. Before diving with us, please review this pamphlet thoroughly. Fill in any information requested and be prepared to present proof of your diving certification. Feel free to share any questions or comments with us and enjoy the diving!

### Anse Chastanet Reef

One of the best dives in St. Lucia is the reef at **Anse Chastanet Marine Reserve**, just off shore at our dive shop. This is the first dive for all divers.

### Daily Schedule

**Please see the Kids Sea Camp dive agenda attached.**

The first dive is the deepest, usually 60-70 ft. (18-21 meters); followed by a second shallower dive, usually 30-50 ft. (10-14 meters). The dive sites are within a 5 to 15 minute boat ride from the dive center.

**For Shore Diving** – Tanks will be set out on the dive shop patio 45 minutes prior to the dive so divers may set up their gear. Please allow yourself ample time to set up your gear prior to the dive. Dives depart at the schedule times. As a courtesy to other dives we ask that you are set up and ready to dive at the scheduled hour.

**For Boat Diving** – Tanks will be placed on the boat. Divers should bring all other gear and set up on board. Check equipment to ensure that it is in working order prior to departure. If you require any assistance, please let us know.

Smoking is not permitted on dive boats nor in the dive center area.

**Nitrox Divers:** - Please be at the dive shop 30min prior departure. To give you enough time to check your tanks and sign the appropriate paperwork.

**Night Diving** – Please sign up early at the Scuba St. Lucia front desk, if you are interested in doing a night dive. Please note that there is a limited supply of dive lights for rental, so please bring your own with you if possible. Also, a cyalume stick will be required to be worn by all night divers. These may be purchased at the dive center for US\$3 or you may bring your own with you as well. All night dives are done from the shore in the **Anse Chastanet Marine Reserve**.

**Signing Up** – There is no need to sign up for dives as your group schedule has been prearranged for your convenience. However, we do request if you are planning to skip a dive outing that you let someone in the group know so that the boat does not wait for you. In addition, we would like to get a count for

night divers in the afternoon of the night dive so that we may prepare tanks, lights and cyalumes as necessary. Thank you for your cooperation.

**Equipment** – Tanks, weight belts and weights are included in the cost of dives. BCD’s, regulators, wetsuits, lights and cyalume sticks may be rented and/or purchased.

**Locker Room** – Lockers and hanging space are provided for your convenience. Locks and keys are available at our retail center desk. If you bring the locker key to equipment rental and tell them the number of your locker, your key will be held for you.

In the interest of protecting our beautiful coral reefs, the Soufriere Marine Management Authority has been established (SMMA). Divers are required to pay a fee of US\$5 per day or US\$15 per year to dive within the SMMA. Please note the SMMA has a **no knife, no glove policy**. Please do not touch any coral or marine life. Control your buoyancy carefully so that fins or gauges do not touch the reef. If you encounter any fish pots (traps) while diving, please do not interfere with them. Report it so that we may ask the marine rangers to remove them. Thank you for your help in preserving our reefs!

**All of our diving is escorted** by experienced, knowledgeable dive masters who will show you the best of St. Lucia’s underwater world. Please stay within the dive profile guidelines established for each site. Avoid decompression situations (which would preclude diving for the following 24 hours). Recommended profiles are based on the SSI Dive Tables. If using dive computers, all members of the buddy team should be so equipped (no sharing of dive computers is allowed). **You are responsible for your own safe nitrogen levels. We strongly recommend that you do not dive 24 hours before flying.**

In the interest of the safety of all our divers, we ask that you do not drink any alcoholic beverages until after your last dive of the day. We reserve the right to refuse a dive to anyone who has been consuming alcohol prior to the dive. Please don’t drink and dive.

**Enjoy your diving with us.**

Please sign below to indicate that you have read and understood **Scuba St. Lucia’s** policies and procedures.
